168th Street Project Updates

Planned improvements and widening of 168th Street remain underway. Regarding the Q Street to West Center Road segment, the right-of-way process is nearly complete and the City is in the final phases of the environmental re-evaluation.

In an effort to better coordinate construction with several projects in the area, construction of the Q Street to West Center Road segment of 168th Street has been delayed until January 2023. This will allow completion of right-of-way and environmental processes. Additionally, the revised schedule provides a more favorable construction season and will support a more competitive bid environment.
