

GROVER STREET CLOSING

BEGINNING SEPTEMBER 12th AT 7:00 AM

PLEASE SEE REVERSE SIDE FOR DETAILS

Purpose: Replace water main and pavement on Grover Street from 50th to 60th.

Schedule: Approximately 2 months.

Impacts: The pavement in the highlighted area on the picture will be removed, and no vehicle access will be possible. Residents within the construction area will need to park their vehicles in one of the green parking areas shown, and walk to their residence.

Mail: Mailboxes along the street will be removed, and temporary mailboxes will be placed near the parking zones for mail delivery. Mailboxes will be re-installed once the paving is completed in this phase.

Trash: Trash will be collected on the normal schedule. Continue putting your trash cans near the end of your drive for collection and Hawkins Construction will take care of getting your trash collected and the cans returned.

Driveways: Driveways approaches will be removed and re-constructed, as well as sidewalks.

Landscaping: Any damaged sprinkler heads/lines will be repaired or replaced. When paving is complete, disturbed areas will receive amended topsoil and sodded.

Questions: Tony Valla with Hawkins Construction is the superintendent who will be on-site during all construction. He can be reached at tvalla@hawkins1.com or 402-658-0820.
