Robert G. Stubbe, P.E.
Public Works Director

Dear Business Owners, Tenants and Residents:

The City of Omaha awarded a contract to reconstruct the 42nd Street C & D St. Bridges. The project will consist of removing and constructing the 42nd Street Bridge, constructing new storm, concrete pavement, driveways and sidewalks.

Hawkins Construction, along with its subcontractors shall perform the work. The City of Omaha selected Alfred Benesch & Company to be the onsite representative for this project. The following is the anticipated construction schedule which may vary due to weather or other unforeseen issues:

Close 42 nd Street Bridge: (Bridge Removal, Excavation & Wall Construction)	October 17, 2022
Begin Bridge Construction	January 2023
Begin Concrete Pavement Construction: (D St. intersection, 42 nd St & I-80 off ramp intersection)	Aug/Sept 2023
Project Completion	Nov. / Dec. 2023

42nd Street will be closed from the north side of “D” Street to the east bound I-80 off ramp for the duration of the project. During the construction of the “D” Street and the 42nd St & I-80 off ramp intersections lane restrictions will be necessary to maintain access to businesses and residents. Below are the designated pedestrian and vehicle detours during construction. The multiuse trail will remain open except for periodic closures when work is directly affecting the trail.

Thank you in advance for your cooperation during construction.

Sincerely,

City of Omaha
Public Works Department
