

MILITARY AVE: 45TH - HAMILTON ST

Safety Project Road Resurfacing & Reconfiguration

PROJECT DESCRIPTION

Omaha Public Works is working to improve safety and access along a half-mile stretch of Military Ave (45th St to Hamilton St). As part of the **Summer 2026 resurfacing of this corridor**, the City will introduce a **new lane configuration** and other updates to make it **safer, more accessible, and more comfortable for all users**.

Planned improvements include **new crosswalks, improved transit access, and a new bike lane** connecting to the new Beltline Trail extension at 40th and Military. These changes can help **slow traffic, reduce risk**, and better organize how space is used along Military Ave.

Parking on the east side of Military Ave will be removed, except between Grant St and Burdette St. Parking will remain on the west side. This change helps better define parking areas and reduces the risk of sideswipe crashes.

The intersection of Military Ave and Grant St/45th St/Fontenelle Blvd will be restriped to better define and tighten the intersection, improving sight lines for drivers and enhancing safety.

PROJECT BENEFITS

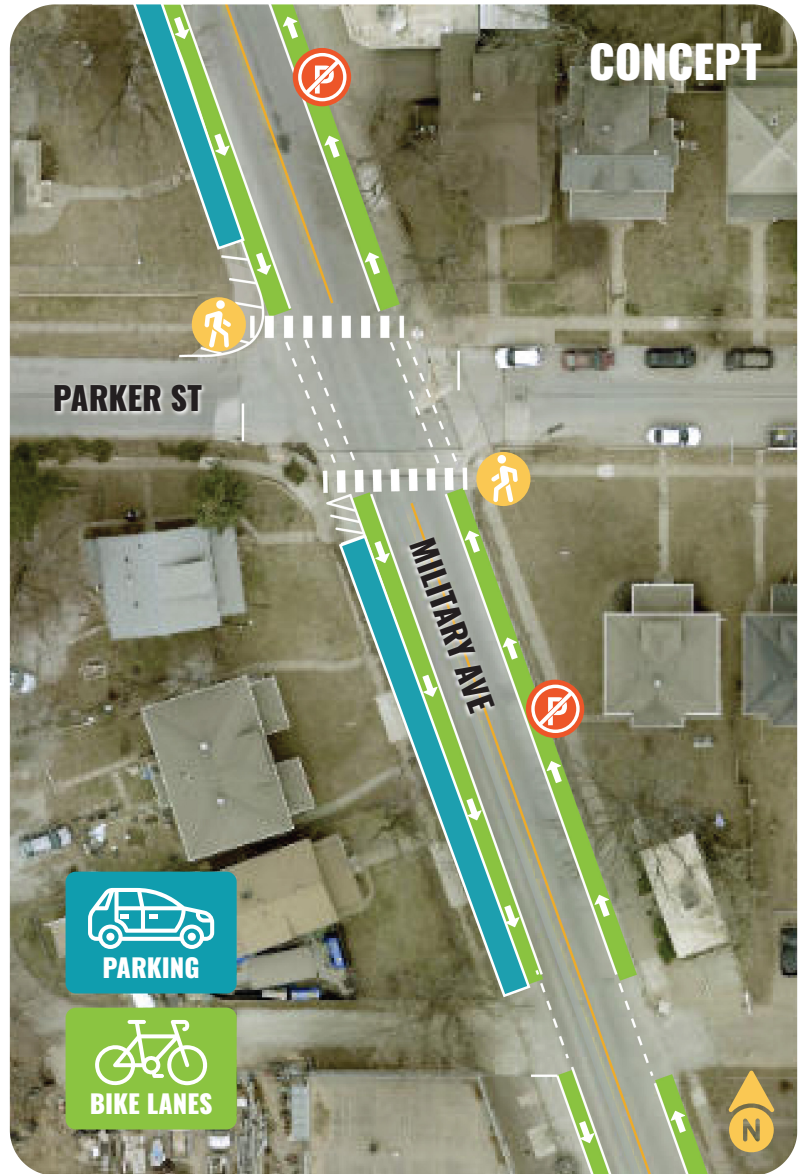

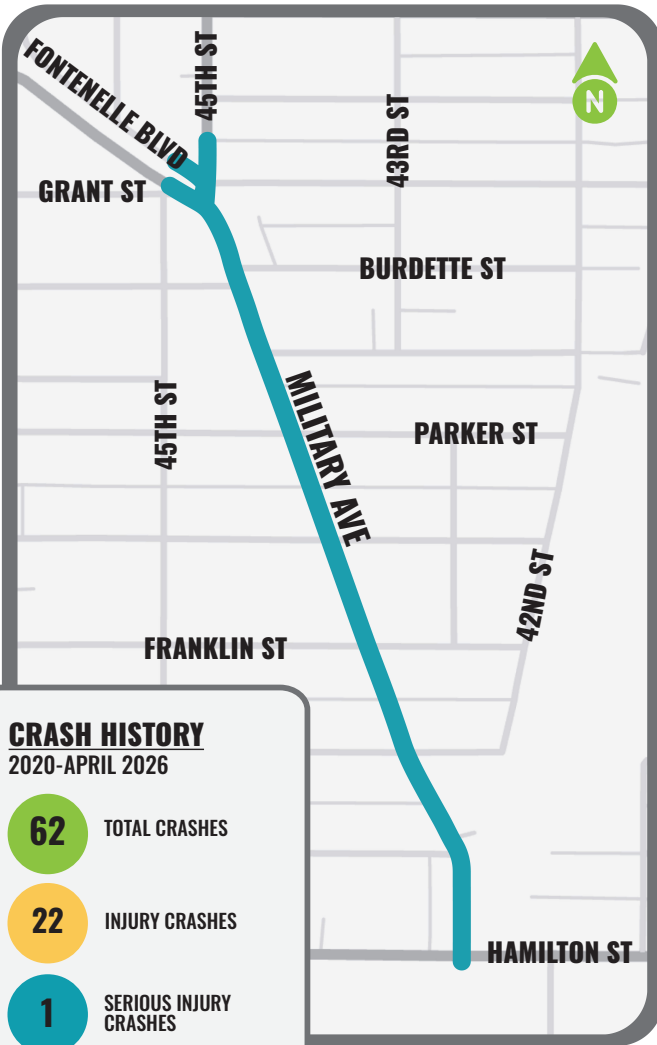

- A resurfaced road
- A new bike connection to/from the Beltline Trail
- Painted curb extensions to reduce crossing distances for people walking
- New high visibility crosswalks
- A buffered parking lane
- Improved intersection geometry at Military and Grant/45th/Fontenelle Blvd

Ex: Painted Curb Extension

CORRIDOR PROFILE

SCHEDULE

Work is tentatively scheduled to start in mid-late Summer 2026 (Aug/Sept)
