Dear Resident:

As a follow-up to the construction updates for the City of Omaha **205th Street and Cumberland Drive intersection** improvements project, please be advised of the following schedule update regarding **Phase 2** of construction. **This phase is expected to begin on June 9**, weather permitting. Below is what to expect during this phase of construction.

Phase 2 – Full closure of the 205th St. and Cumberland Dr. intersection

- With the completion of Phase 1, access to/from the area will then be provided along 204th Ave. and Cumberland Dr. east to 204th St.
- As with Phase 1, driveways requiring reconstruction will be individually coordinated with property owners including notification prior to driveway closures and maintaining at least one driveway access at all times.

To help minimize delays in completing the work, please do not activate any lawn sprinklers that may spray water into the active construction area, or coordinate capping of sprinkler lines with the Contractor and project team. Additionally, please do not move or otherwise tamper with fencing, barricades, or other warning devices. These devices are essential for identifying potentially unsafe conditions. Please advise others (including children) at your location of the upcoming work and the need to exercise due care when near or adjacent to the construction areas and activities.

Information regarding the project can be found on the City of Omaha's "Keep Omaha Moving" website: <http://www.keepomahamoving.com/projects>.

For additional information, questions, or concerns, please contact Brianna.
